This Item

P-51D Seatbelts

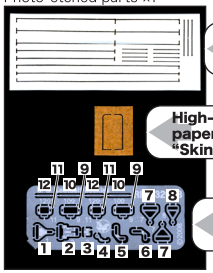
SWS04-M07

Compatible Kits
SWS 1/32 P-51D
Other US Army aircrafts

■Contents

Cut the belts off from the cardboard with a cutter or a design knife. Please use specific nippers to cut photo-etched parts. Tweezers for plastic models are very helpful to handle cut parts and apply them to the kit.

Contents
0.2mm thick, high-strength color paper ×2
Photo-etched parts ×1



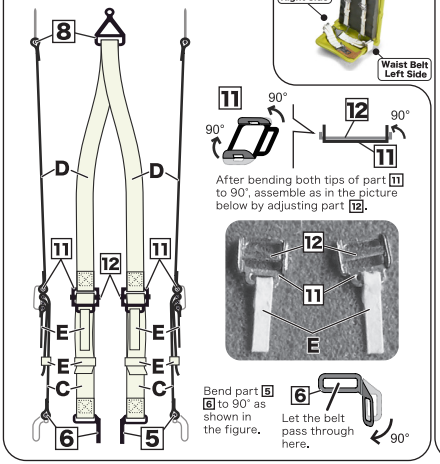
There is a "tooth-shaped" tip in the left lower angle of the photo-etched parts. You can reproduce the "seam lines" by inserting it while pushing in the belt.

Cut the two high-strength papers as in the figure, and assemble as shown below by referring to the marks (from A to G). Photo-etched parts numbers are printed on the cardboard, so check them first and cut.

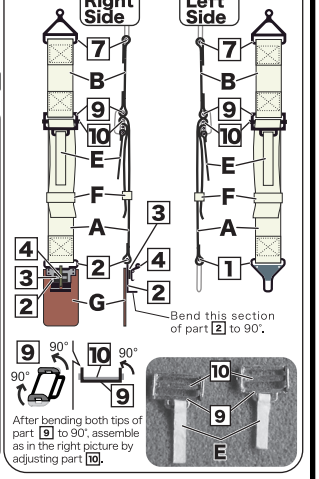
■Assembly

Let the belt pass through the metal parts cut from the photo-etched parts, and assemble as shown below while adjusting the belt's length. Attach the high-strength paper of the belt part with some wood bond. Attach the belt and the seat parts with a double sided tape. Attach the belts to the seat by referring to the kit's instruction manual. (Sample model: SWS 1/32 P-51D)

"Shoulder" Belt Assembly



"Waist" Belt Assembly



■Product Specifications

① Very effective detail up!! Build in the cockpit and your kit gets immediately cooler!
② A real sense of power!! Two different materials!! Smooth fabric/leather and sharp metal make this masterpiece of seatbelts reproducible!
③ Easy assembly!! You can recreate real-looking seatbelts even without painting!

⚠ Attention

- This item is suited for people over 15. Do not hand this out to children under 15.
- Do not ingest parts or bag by mistake. You might choke.
- You may hurt yourself unintentionally during use, so pay attention.

We take the utmost of care when overseeing manufacturing, but if your kit is among the very small percentage that contains a defective part, please contact customer service within two weeks of your purchase with your full name and order number.
