

### Attention!

- This item is meant for hobbyists 15 years of age or older. Please do not give this item to children under 15.
- This item is intended for use with the Zoukei-mura 1/32 "Kettenkrad".
- The polyethylene bags that contain the parts and the assembly manual present a suffocation risk. Please do not drop the parts or bend them in unintended ways, as they may be damaged.
- In order to properly express the shape of the sculptures, it was unavoidable for some parts to have sharp edges. Please be careful.

### ◆◆Important Points for Assembly◆◆

- Please carefully read the assembly manual prior to opening and make sure that everything is included.
- To use this item, tools such as nippers, a craft knife, ●files, ●sanding papers, ●instant glue, etc., are required, so please prepare them.
- Please prepare the parts first. You can remove seam lines and gate marks with tools such as nippers, a craft knife and files. Urethane resin is softer than the plastic material used for the kit, so be careful to avoid carving too much. Air bubbles can be filled with putty (epoxy, plastic, etc.) or similar, then finished with sanding paper. In the case that mold details are lost, you can recover them with tools such as spatulas.
- During assembly, adjust the orientation of each part while checking the balance and pose of the entire kit.
- Instant glue should be used for these parts. Please note that they cannot be glued with plastic model kit cement.
- We recommend using brass wire (sold separately) to reinforce the areas where the parts are glued together. Use a pin vise and drill bit to open a hole on both sides of each gluing surface, then insert the ends of a brass wire into the holes to connect the sides. This will greatly increase the strength of each joint. (Using the wires without glue is temporarily build a figure is called dry fitting. We recommend doing so in order to check each figure's balance.)
- Base preparation is required before painting. Please thoroughly finish the base with a coat of surfacer spray (otherwise, the paint will chip off as time passes).
- We recommend the water-based "Vallejo Color" paints for painting your kit, due to its environmental friendliness. While referring to resources on historical Luftwaffe aircrafts, you may paint the model with the coloring of your choice.

※When it comes time to use tools and paints, please carefully follow the individual instructions respective to each tool for your safety.

### Chart of Included Parts

\*Parts can be distinguished by the number of dots marked on each gate.

We take the utmost of care when overseeing manufacturing, but if your kit is among the very small percentage that contains a defective part, please contact customer service within two weeks of your purchase with your full name and order number.

## How to Assemble and Display the 1/32 "Engineers & Nurse" Set

### ■ Kettenkrad's Driver

Assemble all the parts before placing the figures in the "Kettenkrad".

※Before cutting the gates, please double check the engraved dots to distinguish the parts.

As the saddle seat is molded on part 4, assemble without using the seat part included in the Kettenkrad kit.

Both hands grasp the handle.

### ■ Engineer

Engineer seating in the back seat and calling out to the nurse.

※Before cutting the gates, please double check the engraved dots to distinguish the parts.

### ■ Nurse

Nurse carrying laundry.

### ■ Equipments

Assemble by adjusting parts' shapes.

**B-6**  
Saddle seat.  
Do not use part B-6 (saddle seat) from the Kettenkrad kit.

1/32 Sd.Kfz.2 "Kettenkrad"

### ■ Shovels

12.x2  
Please place it wherever you want.

**Display Example**

The 1/32 "Kettenkrad" is sold separately. The kit is not included in this set. Picture shows under-development items; they may differ from the real items.

◆ Fixing the rifles on the rifle holders You can represent the rifles attached on the rifle holders. Please represent the scene as you want.

### ■ Rifles fixed on the rifle holders

The letter "L" is marked on the gate of the left side only.

### \* Processing the parts from the Kettenkrad kit:

Cut the parts in red before assembling the 1/32 Kettenkrad kit.

**A-2**  
Left side of the vehicle body.

**A-7**  
Right side of the vehicle body.

Please cut the parts very precisely when adjusting parts 10, 11 and L by referring to the schema showing the rifles fixed on the rifle holders.

### \* Rifles fixed on the rifle holders schema

This shape should be on the inner side.

Attachment position of the cut part.
