

### Attention!

This item is meant for hobbyists 15 years of age or older. Please do not give this item to children under 15. This item is intended for use with the Zoukei-mura 1/32 "P-51D Mustang".

The polyethylene bags that contain the parts and assembly manual present a suffocation risk. Please do not drop the parts or bend them in unintended ways, as they may be damaged.

In order to properly express the shape of the scoops, it was unavoidable for some parts to have sharp edges. Please be careful.

**1/32 "P-51D Mustang" Parts Installation Instructions** These parts should be installed while building the 1/32 "P-51D Mustang" aircraft kit. Please also refer to the kit assembly manual.

### Installing the Main Wheel Tires

When building the 1/32 "P-51D," please install the weighted tires as shown below.

Refer to the P-51D's manual **p33.** -7.A -7.B

**III-7. A Main Gear (Right)**

In place of parts B-3 and B-4, install a main wheel tire.

**Main Wheel Tire**

When building, make sure that the weighted surface is oriented downward (against the ground).

**III-7. B Main Gear (Left)**

主脚 (左)

In place of parts B-1 and B-2, install a main wheel tire.

**Main Wheel Tire**

When building, make sure that the weighted surface is oriented downward (against the ground).

### Installing the Rear Wheel Tire

When building the 1/32 "P-51D," please install the weighted rear wheel tire in place of part B-5, as shown below.

Refer to the P-51D's manual **p34.** -7.F

**III-7. F 尾輪 Tail Wheel**

**III-7. E**

**Rear Wheel Tire**

Install the tire so that the weighted surface is flush against the ground. Please refer to the "Installation Guide" below.

### Installation Guide

Orient the weighted surfaces precisely, so that they are flush against the ground.

By using these parts in combination with the "Metal Struts" (sold separately), it is possible to produce a final finish even closer to the actual aircraft.

### Important Points for Assembly

Please carefully read the assembly manual prior to opening and make sure that everything is included.

To use this item, tools such as nippers, craft knife, files, sanding papers, instant glue, etc. are required, so please prepare them.

Please prepare the parts first. You can remove seam lines and gate marks with tools such as nippers, a craft knife and files. Urethane resin is softer than the plastic material used for the kit. So be careful to avoid carving too much. Air bubbles can be filled with putty (epoxy, plastic, etc.) or similar, then finish with sanding paper. In the case that mold details are lost, you can recover them with tools such as spatulas.

For assembly, adjust the direction of each part while checking the balance and pose of your entire kit.

Instant glue should be used for these parts. Please note that they cannot be glued with plastic model kit cement.

Base preparation is required before painting. Please thoroughly finish the base with a coat of surfacer spray (otherwise, the paint will chip off as time passes.)

With regard to paint, after taking personal safety and the global environment into consideration, we recommend using "Vallejo Color" acrylic hobby paints for the new century. Please check references regarding the US AAF at that point and the assembly manual of the 1/32 "P-51D" Mustang, and finish your Mustang in your preferred color scheme.

When it comes time to use tools and paints, please carefully follow the individual instructions respective to each tool for your safety.

### Chart of Included Parts

Main Wheel Tire x2

Rear Wheel Tire x1

We take the utmost of care when overseeing manufacturing, but if your kit is among the very small percentage that contains a defective part, please contact customer service within two weeks of your purchase with your full name and order number.
