

Attention!

- This item is meant for hobbyists 15 years of age or older. Please do not give this item to children under 15.
- This item is intended for use with the Zoukei-mura 1/32 "J2M3 RAIDEN"
- The polyethylene bags that contain the parts and assembly manual present a suffocation risk. Please do not drop the parts or bend them in unintended ways, as they may be damaged.
- In order to properly express the shape of the sculpts, it was unavoidable for some parts to have sharp edges. Please be careful.

Turned Metal Machine Gun Set

4 518992 223636

Important Points for Assembly

Before opening the bag, please carefully read this instruction manual and verify that all the parts are included. Please also refer to the 1/32 "J2M3 RAIDEN" instruction manual to use these parts.

To build this kit, basic tools are required (as mentioned on page 6 of the RAIDEN instruction manual). Please make sure these tools are at hand before building the kit.

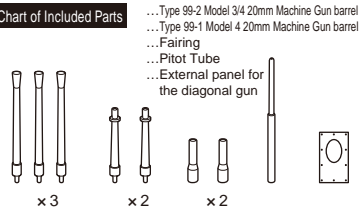

With this kit, you can replace the gun barrels of the 1/32 Raiden 20mm Type 99 II Model 4 machine gun and 20mm Type 99 I Model 4 machine gun, and the tip of the 20mm Type 99 I Model 4 machine gun attached with the fairing is completely recreated. Also, in order to recreate the attached diagonal gun barrel (only the external aspect), another 20mm Type 99 II Model 4 machine gun and an external panel with a hole are included as option. Please insert them in the 1/32 Raiden after reading these instructions carefully.

To affix the parts of the kit, please use an instant glue. Please do not use glue dedicated to plastic models. Before painting, make a primer coat using a Metal Primer. (Without primer coat, paint may peel.)

The recommended brand for painting your kit is the latest line of paint from Vallejo Color, due to its non-toxicity and environmental friendliness. While referring to resources on historical Imperial Japanese Navy, you may paint the model with the coloring of your choice.

Please use caution when handling the tools and solvents used for assembly and painting by referring to their instruction manuals.

Chart of Included Parts

We take the utmost of care when overseeing manufacturing, but if your kit is among the very small percentage that contains a defective part, please contact customer service within two weeks of your purchase with your full name and order number.

1/32 "J2M3 RAIDEN" Assembly Instructions

These parts will be inserted when assembling the 1/32 "J2M3 RAIDEN" kit. Please refer to the instruction manual of the "J2M3 RAIDEN."

Replacement and insertion of the gun barrel

When assembling the 1/32 Raiden, please replace and insert the gun barrel.

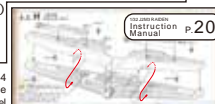

1/32 J2M3 RAIDEN
Instruction Manual p.19

Replacement of the gun barrel

Cut the gun barrels of each machine gun part, and replace them by the gun barrel included in this set. On this occasion, make a 1mm diameter hole in the attachment area. Affixed the fairing.

In the 20mm Type 99 I Model 4 machine gun.

When affixing the fairing in the 20mm Type 99 I Model 4 machine gun, please insert the fairing into the attachment position of the main wing external panel. (Please make sure that the fairing tip does not protrude.)

Replacement of Pitot Tube

When assembling the 1/32 Raiden, affix the pitot tube included in this set instead of part E-9.

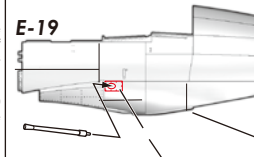

1/32 J2M3 RAIDEN
Instruction Manual p.37

Option

With the 1/32 Raiden, it is possible to recreate only the appearance of the diagonal machine gun that is installed in some of the real airplanes. Please use one gun barrel () of the 20mm Type 99 II Model 4 machine gun and the external panel with a hole ().

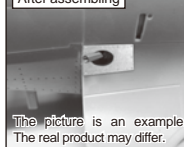

How to assemble

1. Place the part to the position of the diagram of part E-19 above, then make sure the position of the oval part and make a hole.
2. Make part bent and affix to the position as shown above.
3. Attach part by adjusting its angle as shown below. Cement it from the inner side of the external panel (part E-19) with instant glue and epoxy putty.

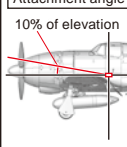

How to make the bend
On a flat and tender stand (rubber board, magazine etc.), use a round stick to make the bend.
