

### Attention!

- This item is meant for hobbyists 15 years of age or older. Please do not give this item to children under 15.
- This item is intended for use with the Zoukei-mura 1/32 "He 219 A-0 Uhu".
- The polyethylene bags that contain the parts and assembly manual present a suffocation risk. Please do not drop the parts or bend them in unintended ways, as they may be damaged.
- In order to properly express the shape of the sculpture, it was unavoidable for some parts to have sharp edges. Please be careful.

### Notices Before Assembly

Before opening the bag, please carefully read this instruction manual and verify that all the parts are included. There are both metal parts and resin parts.

To build this kit, nippers, a cutting knife, sandpaper, waterproof sandpaper, and instant glue are required. Please make sure they are at hand before starting your work.

Adjust the shape of the resin parts. "Parting line" and "gate" caused from production need to be scraped off with nippers, a cutting knife, or a file. Please be careful not to scrape off too much because resin parts are softer than plastic. In case of bubbles, please fill up putty (epoxy resin or polyester) and polish with waterproof sandpaper. If you fill up the molds, please restore it by using a tool such as a spatula. Please use caution when handling the tools and solvents used for assembly and painting by referring to their instruction manuals.

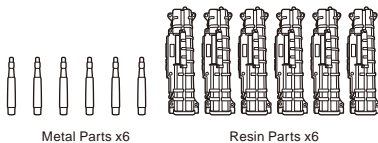

Metal gun barrel parts are installed into the main part of resin MK108 cannons and you can make 6 of them. If you prefer to replace parts from Zoukei-mura 1/32 "He 219 A-0 Uhu" kit or prefer having them together with turned metal machine gun set, sold separately, you need to process them. Please make them as you like.

Before painting, make a primer coat using the Metal Primer spray. (Without primer coat, paint may peel.)

The recommended brand for painting your kit is the latest line of paint from Vallejo Color, due to its non-toxicity and environmental friendliness. While referring to resources on the instruction manual of Zoukei-mura 1/32 "He 219 A-0 Uhu" and historical Luftwaffe aircrafts, you may paint the model with the coloring of your choice.

Please use caution when handling the tools and solvents used for assembly and painting by referring to their instruction manuals.

### Chart of Included Parts

Metal Parts x6

Resin Parts x6

We take the utmost of care when overseeing manufacturing, but if your kit is among the very small percentage that contains a defective part, please contact customer service within two weeks of your purchase with your full name and order number.

## 1/32" He 219 A-0 Uhu " MK108 Set Manual

Assemble MK108 cannons. If you put this parts in 1/32 "He 219 A-0 Uhu", please refer the installation position in the He 219 instruction manual.

### Assemble MK108 Cannon

The drawing shows one cannon (set). You will have six cannons total.

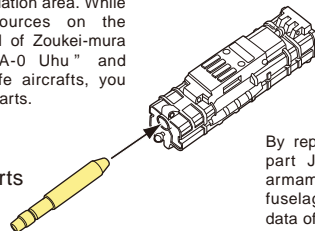

When you install these parts to 1/32 "He 219 A-0 Uhu" kit, you need to process it because the detail of MK108 itself is important, as is the shape of the installation area. While referring to resources on the instruction manual of Zoukei-mura 1/32 "He 219 A-0 Uhu" and historical Luftwaffe aircrafts, you may install these parts.

### Assembled Sample Photo

The photo is for illustrative purposes only. The actual product may differ and are not painted.

### Metal Parts

When you install the assembled MK108 cannon to Zoukei-mura 1/32 "He 219 A-0 Uhu" kit, you need to replace it to part I-12.

### Resin Parts

By replacing MK 108 cannons to part J-8, you can recreate the armament pack "M2" under fuselage like the actual airplane data of "Wing Guns and Fuselage Guns" in the Zoukei-mura 1/32 "He 219 A-0 Uhu" instruction manual p.3.
