How to use

●Everyone can now easily
reproduce **wood** by “painting”!!

Item Characteristics

- ①This item reproduces detailed wood grain with photo-etching.
- ②When painting, you can use this item just by pressing it on the part with your hands.
- ③After painting, you can remove cleanly the paint from the sheet in order to use it again and again.

Process

Practice with some unnecessary parts, before you actually paint.

Sample Model: SWS 1/32 Horten Ho 229

Mask the area (painting every mold of the panel with a darker color and let it dry. After the base coat has dried, press the panel will give a more realistic effect) Wood Grain Photo-Etched Mask on the part making sure it doesn't move, and then use the wooden painting, then base coat with a wooden-light color and let it dry.

Once you are sure the darker color has completely dried out, remove the masking gently and the work is done. Change the pattern or the masking position on each panel and paint.

Application

●Aircrafts' wooden
outer panels

●Ship models'
wooden parts

●AFV wooden parts
