◆◆Important Points for Assembly◆◆
 ■ For use of this part, please refer to the Instruction Manual of the 1/32 "Kawasaki Ki-45 Kai TORIYU" and prepare the required tools.
 ■ Please use nippers for etching parts when cutting off the etching parts. Tweezers may also be very useful when handling the parts you cut and attaching them to the kit.
 ■ Please use instant glue for cementing these parts. Please note that these parts cannot be glued with plastic model kit cement. Before painting the parts, please spray a coat of metal primer (otherwise, the paint may peel as time passes).
 ■ The recommended brand for painting your kit is the latest line of acrylic paint from Vallejo Color. Please refer to the Zoukei-mura 1/32 "Ki-45 Kai TORIYU" Instruction Manual and Japanese Army historical manuals to paint the model with the coloring of your choice.
 ※ Before using tools and paints, please carefully read their instructions manuals and use them safely.

We take the utmost of care when overseeing manufacturing, but if your kit is among the very small percentage that contains a defective part, please contact customer service within two weeks of your purchase with your full name and order number. Purchasers from VOLKS Japan International Web Site : Please contact imos@volks.co.jp. Purchasers from VOLKS USA : Please contact service@volksusa.com.

Please note that items which have been opened, or worked with, can't be exchanged. Thank you for your understanding.

Follow the directions below for part N-17, then attach etched parts 7 and 17 from this set. Follow the "Ko" and "Hei" manual's directions for assembly.

Etched parts assembly preparation
 Attach parts N-1 and N-3 to N-7. Then cut off areas outside of the gun barrel and shape the barrel as needed.

Attach perpendicular to the gun barrel.

Fit though part N-6, then attach etched parts 7 and 17.

Additionally affixing the separately sold "Turned Metal Machine Gun and Pitot Tube Set" part will increase the stability and strength of the kit.
