◆◆Important Points for Assembly◆◆
■For use of this part, please refer to the Instruction Manual of the 1/32 "Henschel Hs 129" and prepare the required tools.
■Please use nippers for etching parts when cutting off the etching parts. Tweezers may also be very useful when handling the parts you cut and attaching them to the kit.
■Please use instant glue for cementing these parts. Please note that these parts cannot be glued with plastic model kit cement. Before painting the parts, please spray a coat of metal primer (otherwise, the paint may peel as time passes).
■The recommended brand for painting your kit is the latest line of acrylic paint from Vallejo Color. Please refer to the Zoukei-mura 1/32 "Henschel Hs 129" Instruction Manual and Luftwaffe historical manuals to paint the model with the coloring of your choice.
※Before using tools and paints, please carefully read their instructions manuals and use them safely.

We take the utmost of care when overseeing manufacturing, but if your kit is among the very small percentage that contains a defective part, please contact customer service within two weeks of your purchase with your full name and order number.
