◆◆Important Points for Assembly◆◆

- Before opening the bag, please carefully read this instruction manual and verify that all the parts are included. Please also refer to the 1/32 "Henschel Hs 129 B-3" Instruction Manual to use these parts.
- You need the basic tools mentioned on page 6 of the kit instruction Manual to process the parts of this set.
- This set replaces the machine gun and pitot tube plastic parts used in the Zoukei-Mura 1/32 Hs 129 B-3 with turned metal parts. Please read these instructions as well as the kit's manual before assembling with your 1/32 Hs 129 B-3 kit.
- To affix the parts of the kit, please use instant glue. Please do not use glue dedicated to plastic models. Before painting, make a primer coat using the Metal Primer. (Without primer coat, paint may peel.)
- The recommended brand for painting your kit is the latest line of acrylic paint from Vallejo Color. Please refer to the Zoukei-mura 1/32 "Henschel Hs 129 B-3" Instruction Manual and Luftwaffe historical manuals to paint the model with the coloring of your choice.

※When it comes time to use tools and paints, please carefully follow the individual instructions respective to each tool for your safety.

We take the utmost of care when overseeing manufacturing, but if your kit is among the very small percentage that contains a defective part, please contact customer service within two weeks of your purchase with your full name and order number.
