

Attention!

- This item is meant for hobbyists 15 years of age or older. Please do not give this item to children under 15.
- This item is intended for use with the Zoukei-mura 1/48 "Ho 229".
- The polyethylene bags that contain the parts and the assembly manual present a suffocation risk. Please do not drop the parts or bend them in unintended ways, as they may be damaged.
- In order to properly express the shape of the sculpt, it was unavoidable for some parts to have sharp edges. Please be careful.

SUPER WING OPTIONS

Metal Struts

This kit contains white metal and resin parts. Please note that these parts cannot be glued with plastic model kit cement. Use their original packaging.

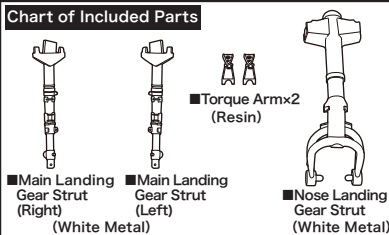

Metal Struts

◆◆ Important Points for Assembly ◆◆

- Before opening the bag, please carefully read this instruction manual and verify that all the parts are included. Please also refer to the 1/48 "Horten Ho 229" Instruction Manual to use these parts.
- To build this kit, a big pincher, a cutting knife, sandpaper, waterproof sandpaper, instant glue, and Metal Primer spray are required. Please make sure they are at hand before starting your work.
- This kit is made of white metal. Parts should be refined. After removing parts' gates with big nippers, remove flash with files and polish the surface with waterproof sandpaper. Because the blade of nippers might break up, please use caution. After roughly sharpening the "parting lines" with the cutting knife and the sandpaper, clean up and polish the surface with waterproof sandpaper. Be careful not to damage the parts.
- To affix the parts of the kit, please use instant glue. Please do not use glue dedicated to plastic models.
- Before painting, make a primer coat using the Metal Primer. (Without primer coat, paint may peel.)
- The recommended brand for painting your kit is the latest line of paint from Vallejo Color. Please refer to the Zoukei-mura 1/48 "Horten Ho 229" Instruction Manual and Luftwaffe historical manuals to paint the model with the coloring of your choice.

※ Before using tools and paints, please carefully read their instructions manuals and use them safely.

Chart of Included Parts

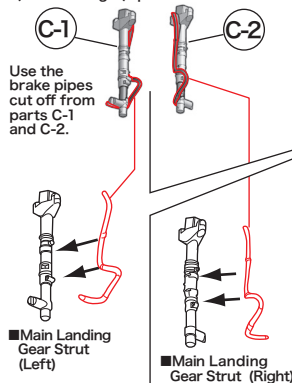

We take the utmost of care when overseeing manufacturing, but if your kit is among the very small percentage that contains a defective part, please contact customer service within two weeks of your purchase with your full name and order number.

1/48 "Horten Ho 229" Assembly Instructions

◆ Main Landing Gear Struts (Left and Right) Assembly

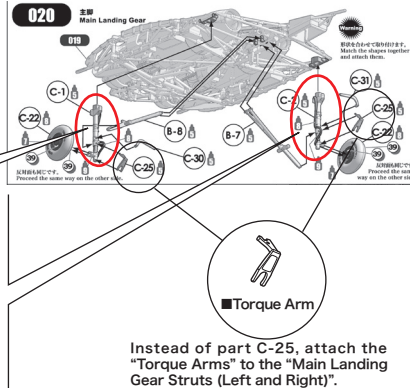

When assembling the main landing gear struts, remove the brake pipes from parts C-1 and C-2, and attach them to the "Main Landing Gear Strut (Left and Right)" parts of this kit.

◆ Main Landing Gear Struts (Left and Right) Attachment

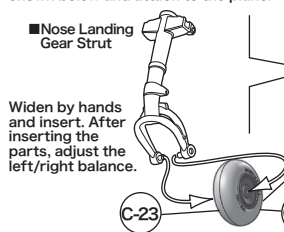

1/48 Horten Ho 229
Instruction Manual p.12

Instead of parts C-1 and C-2, attach the built main landing gears of this kit to the plane.

◆ Nose Landing Gear Strut Assembly

When assembling the nose landing gear strut, replace parts C-20 and C-21 by the "Nose Landing Gear Strut" of this kit, then assemble the parts as shown below and attach to the plane.

◆ Nose Landing Gear Strut Attachment

1/48 Horten Ho 229
Instruction Manual p.12

When using the weighted tires parts (sold separately), the accuracy of the kit increases considerably.
