1/48 F-4D PHANTOM II

How to Atch Decals
1. Cut out the decal part you plan to attach using scissors or similar. Roughly remove the excess area.
2. Mist the decal with water, and press the decal on for 1-2 seconds. Make certain the entire decal is immersed in the water during this time.
3. Remove the decal from the water and press it into place. Place a clear plastic film over the decal and firmly press it down.
4. Adjust the position using tweezers, and use a clean brush to smooth out any air bubbles or excess water. Once the decal is smooth, it is complete.

Limited Edition
Produced under license from David P. Chandler, the Phantom's designer, for the 50th Anniversary of the Phantom’s initial flight.

ZOUKEI-MURA INC. PRESENTS
SUPER WING SERIES. 1/48 No.7
