Please proceed the assembly by following the ① ② ③ order.

1. First, cement the instrument panel as shown in the illustration.
2. Test-fit parts B-1 and B-2 with the main body frame and the instrument panel side.
3. After verifying the assembly of each section, fix with extra thin cement.

As shown in the illustration, the cementing positions of parts B-7 and B-8 on the main body sides are on the inner sides of the 2 main body frame pipes.

Cement part C-30 as shown in the illustration. Attach part C-31 in the same way.
