---

**Important Parts for Assembly**

- Please carefully read the assembly manual prior to opening and make sure that everything is included.
- Use this item, tools such as: wrench, craft knife, file, sanding papers, instant glue etc., are required, so please prepare them.
- Please prepare the parts first. You can remove seam lines and gate marks with tools such as: a craft knife and file. Some parts have marks and grooves on the different sections, so please remove them from the cardboard until you have finished checking the parts.
- Please remove the tires from the cardboard, but the plastic in natural use for the kit, so be careful to avoid cutting too much. Air bubbles can be filed with a putty knife (plastic, etc.) or similar, then finish with sanding paper. In case that mold details are lost, you can recover them with tools such as a putty knife.
- During assembly, adjust the orientation of each part while checking the balance and pose of the entire kit.
- Instant glue should be used for these parts. Please note that they cannot be glued with plastic model cement kit.

---

**Maintenance Crew**

If the holes where to insert the white metal part in the two arms and 1 mattress, please make a pilot drill and then drill.

You can remove the parts thanks to their shape, or by cutting the parts on the part line. Please do not cut off the parts from the box until you have checked them.

---
