**SUPER WING OPTIONS**

**1/32 FOCKE-WULF Ta152H-1**

**Photo-Etched Exterior Set**

This is meant for hobbyists 15 years of age or older. Please do not give this item to children under 15 years old.

The polyethylene bags containing the parts and assembly manual present a suffocation risk. Please do not open the parts or touch them in unintended ways, as they may be damaged. Do not use force to express the shape of the items, as it is unwise for some parts to have sharp edges. Please be careful. Also, please make sure not to leave them in the reach of small children.

**Attention!**

- This item is meant for hobbyists 15 years of age or older. Please do not give this item to children under 15 years old.
- The polyethylene bags containing the parts and assembly manual present a suffocation risk. Please do not open the parts or touch them in unintended ways, as they may be damaged.
- Do not use force to express the shape of the items, as it is unwise for some parts to have sharp edges. Please be careful. Also, please make sure not to leave them in the reach of small children.

We take the utmost care when overseeing manufacturing, but if your kit is among the very small percentage that contains a defective part, please contact customer service within two weeks of your purchase with your full name and order number.

**Important Points for Assembly.**

- Please use nippers for etching parts when cutting them from the etching sheets. Tweezers may also be very useful when handling the parts you cut and attaching them to the kit. Also, to reproduce small details, please prepare a metal wire (e.g., brass wire) of 0.5mm diameter.
- To file the parts of the kit, please use instant glue. Please do not use glue dedicated to plastic models. Before applying the parts, apply the Metal Primer. (Without primer coat, paint may peel.)
- This is the recommended brand for painting your kit: the latest line of acrylic paint from Vallejo Color. Please refer to the instructions of the Ta152H-1 Instruction Manual and Luftwaffe Historical manuals to paint the model with the coloring of your choice.

Please carefully use the tools and solvents for assembly and painting by referring to their instruction manuals.

**Marks Used in the Instructions**

- Do the same for right and left.
- Cut off.
- Scrape away.
- Bend.
- Choose one.
- Make a hole.
- Process the hinges and assemble.

**Colors Used in the Instructions**

- Parts of the Kit.
- Parts of this Photo-Etched Set.
- Cut off this area.
- Fill this opening with a putty, or similar.

---

**Fuselage Lateral Hatch Assembly**

1. Scrape away the details of the panel, shape the cross-section and make the panel open.

2. Process the pectinate area that needs to be put together, and assemble. Use a 0.5mm diameter brass pipe (sold separately) to recreate the circular shape of the hinges. Assemble after processing the parts on both sides.

3. After assembly, insert a brass pipe (sold separately) to fix the parts. (Cut the brass pipe in order its size fits the parts.) Since the parts can be broken easily, we recommend fixing the parts as soon as after adjusting the angle of the hinges. (Like the real hinges, these parts are not movable.)

4. Prepare a brass pipe of 0.5mm diameter separately.

---

**Brass Pipe (sold separately)**

- Prepare a brass pipe of 0.5mm diameter separately.

---

**Brass Pipe Process / Assembly**

- When bending the parts, please make the hinges a little bit larger than necessary.

---

**Brass Pipe Process / Assembly**

- When seeing this mark, please proceed as explained above.
