Engine Cowling Assembly

After being processed, part E15 attaches as the kit’s part.

There is a total of 6 points of assembly (3 on each side).

Brass Pipe (sold separately)
Prepare a brass pipe of 1mm diameter separately.

Cowl Flap Assembly

Before attaching parts A28 and A29 to the kit, insert the photo-etched part 1 and attach parts E2 and E17. Then, assemble the cowl flap with photo-etched parts 17 and 18. When doing this, make the photo-etched parts 17 and 18 curved like part E3.

Air Inlet Assembly

Loop Antenna Assembly
