**Attention!**
- This item is meant for hobbyists 15 years of age or older. Please do not give this item to children under 15.
- This item is intended for use with the Zoukei-Mura 1/32 He 219 A-0 Uhu.

**The polyethylene bags that contain the parts and assembly manual present a suffocation risk.** Please do not drop the parts or bend them in unintended ways, as they may be damaged.

In order to properly express the shape of the sculpts, it was unavoidable for some parts to have sharp edges. Please be careful.

---

**Important Points for Assembly**

1. Please use caution when handling the tools and solvents used for assembly. Some parts may have sharp edges.
2. Only use glue dedicated to plastic models. Before painting, make a primer coat using a Metal Primer. (Without primer coat, paint may peel.)
3. The recommended brand for painting your kit is the latest line of paint. To affix the parts of the kit, please use an instant glue. Please do not use with water-based adhesives.
4. Before opening the bag, please carefully read this instruction manual and verify that all the parts are included. Please also refer to the 1/32 He 219 A-0 Uhu instruction manual to use these parts.
5. The opening of parts E and F have an angle. The parts are in their original orientation or if the orientation allows joining them with the weapon frame (F-41), and affix parts E and F. Cut down the plastic tube (parts in red) of the inner-wing armament 3-4 F. On the left side, assemble parts A, B, and D with J-8 and I-10 to create the left inner wing armament 3-4 F. The picture shows the right inner-wing armament 3-4 F. The MG151 turned metal machine gun barrel (J-8) cannon is the inner-wing MG151 gun barrel (J-8). It reproduces the insertion of the cannon inside the blast tube. Use the parts A, B, and D as shown below. When gluing, remember to check if the MG151 turned metal machine gun barrel (J-8) is fixed as described in the 1/32 He 219 A-0 Uhu kit.
6. Cut the cannon of MK108 gun barrel (I-12) and affix part C in this hole and glue/affix it. A pin vice of 1.0mm. Insert part C a pin vice. Insert parts E and F in the hole before gluing/affixing. Use a 4.0mm drill blade and a pin vice of 1.0mm. Insert part C.
7. Before assembling the parts, please verify that they are in their original orientation or if the opening of parts E and F have an angle. The MG151 turned metal machine gun barrel (J-8) and the link shoot (I-1, I-13) are fixed as described in the 1/32 He 219 A-0 Uhu kit. The MG151 turned metal machine gun barrel (J-8) cannon is well inserted in the blast tube. Use the parts A, B, and D as shown below. When gluing, remember to check if the MG151 turned metal machine gun barrel (J-8) is fixed as described in the 1/32 He 219 A-0 Uhu kit.
8. The MG151 turned metal machine gun barrel (J-8) cannon is well inserted in the blast tube. Use the parts A, B, and D as shown below. When gluing, remember to check if the MG151 turned metal machine gun barrel (J-8) is fixed as described in the 1/32 He 219 A-0 Uhu kit.
9. The opening of parts E and F have an angle. The parts are in their original orientation or if the orientation allows joining them with the weapon frame (F-41), and affix parts E and F. Cut down the plastic tube (parts in red) of the inner-wing armament 3-4 F. On the left side, assemble parts A, B, and D with J-8 and I-10 to create the left inner wing armament 3-4 F. The picture shows the right inner-wing armament 3-4 F. The MG151 turned metal machine gun barrel (J-8) cannon is well inserted in the blast tube. Use the parts A, B, and D as shown below. When gluing, remember to check if the MG151 turned metal machine gun barrel (J-8) is fixed as described in the 1/32 He 219 A-0 Uhu kit.
10. The MG151 turned metal machine gun barrel (J-8) cannon is well inserted in the blast tube. Use the parts A, B, and D as shown below. When gluing, remember to check if the MG151 turned metal machine gun barrel (J-8) is fixed as described in the 1/32 He 219 A-0 Uhu kit.

**Zoukei-Mura Inc. Presents**

**Super Wing Series**

1/32 Heinkel He 219 A-0 Uhu

**Super Wing Options**

- Super Wing Series
- Zoukei-Mura Inc.
- Present

---

**Turned Metal Machine Gun Set**

- 1/32 Heinekel He 219 A-0 Uhu
- SUPER WING OPTIONS
- Zoukei-Mura Inc.
- Present

**Included Parts**

- 16 parts
- C ~ 2
- D ~ 2
- E ~ 2
- F ~ 2

**Method of Replacement for Each Part**

- Please use caution when handling the tools and solvents used for assembly. Some parts may have sharp edges.
- Only use glue dedicated to plastic models. Before painting, make a primer coat using a Metal Primer. (Without primer coat, paint may peel.)
- The recommended brand for painting your kit is the latest line of paint. To affix the parts of the kit, please use an instant glue. Please do not use with water-based adhesives.
- Before assembling the parts, please verify that they are in their original orientation or if the opening of parts E and F have an angle. The parts are in their original orientation or if the orientation allows joining them with the weapon frame (F-41), and affix parts E and F. Cut down the plastic tube (parts in red) of the inner-wing armament 3-4 F.

**Picture of the finished assembly.**
