

### Attention!

- This item is meant for hobbyists 15 years of age or older. Please do not give this item to children under 15.
- This item is intended for use with the Zoukei-mura 1/32 "He 219 A-0 Uhu."
- The polyethylene bags that contain the parts and assembly manual present a suffocation risk. Please do not drop the parts or bend them in unintended ways, as they may be damaged.
- In order to properly express the shape of the scabuts, it was unavoidable for some parts to have sharp edges. Please be careful.

### Notices Before Assembly

Before opening the bag, please carefully read this instruction manual and verify that all the parts are included. There are both metal parts and resin parts.  
 To build this kit, nippers, a cutting knife, sandpaper, waterproof sandpaper, and instant glue are required. Please make sure they are at hand before starting your work.  
 Adjust the shape of the resin parts. "Parting line" and "gate" caused from production need to be scraped off with nippers, a cutting knife, or a file. Please be careful not to scrape off too much because resin parts are softer than plastic. In case of bubbles, please fill up putty (epoxy resin or polyester) and polish with waterproof sandpaper. If you fill up the molds, please restore it by using a tool such as a spatula.  
 Please use caution when handling the tools and solvents used for assembly and painting by referring to their instruction manuals.

Metal gun barrel parts are installed into the main part of the resin MG151 machine gun, and you can make 6 of them. If you prefer to replace parts from Zoukei-mura 1/32 "He 219 A-0 Uhu" kit or prefer using them together with the turned metal machine gun set, sold separately, you need to process them. Please make them as you like.

Before painting, make a primer coat using the Metal Primer spray. (Without primer coat, paint may peel.)  
 The recommended brand for painting your kit is the latest line of paint from Vallejo Color, due to its non-toxicity and environmental friendliness. While referring to resources on the instruction manual of Zoukei-mura 1/32 "He 219 A-0 Uhu" and historical Luftwaffe aircrafts, you may paint the model with the coloring of your choice.  
 Please use caution when handling the tools and solvents used for assembly and painting by referring to their instruction manuals.

### Chart of Included Parts

We take the utmost of care when overseeing manufacturing, but if your kit is among the very small percentage that contains a defective part, please contact customer service within two weeks of your purchase with your full name and order number.

## 1/32 " He 219 A-0 Uhu " MG151 Set Manual

Assemble MG151 machine guns. If putting these parts in 1/32 " He 219 A-0 Uhu, " please refer to the installation position in the He 219 instruction manual.

### MG151 Machine Gun Assembly

The drawing shows one gun (set).  
 You will have six guns total.

Displaying this beside the " Barrel Cleaning Set, " sold separately, you can enhance the scene of the real aircraft.

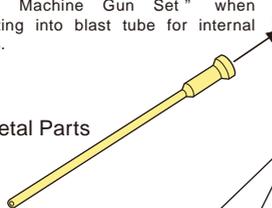

Although you can insert the metal parts into blast tube underside of the fuselage of the " Turned Metal Machine Gun Set, " sold separately, please use the gun barrel parts included with the " Turned Metal Machine Gun Set " when inserting into blast tube for internal wings.

### Assembled sample photo

The photo is for illustrative purposes only. The actual product may differ and are not painted.

### Metal Parts

### Plastic Resin Parts

When the resin parts are replaced with part J-8 from Zoukei-mura 1/32 " He 219 A-0 Uhu, " you need to process it due to the different shape of the installation area.
