1/32 "Horten Ho 229" Assembly Instructions

These parts will be inserted when assembling the 1/32 "Horten Ho 229" kit. Please refer to the instruction manual of the "Horten Ho 229".

Barrels (Gun Barrel and Muzzle Brake) Insertion

1/32 Horten Ho 229
Instruction Manual P.20

MK103 Gun Barrel Assembly

In order to assemble the 1/32" Horten Ho 229 "MK103 gun barrel, replace parts D-22 with the MK103 gun barrel included in this set.

Once you have attached the gun barrel for MK103, plug it in the fuselage of the 1/32" Horten Ho 229."

Muzzle Brake Assembly

Replace part D-24 with the muzzle brake of this set, and attach it.

Pitot Tube Insertion

Replace part L-13 with the pitot tube of this set, and attach it.

Note for assembly

Before opening the bag, please carefully read this instruction manual and verify that all the parts are included. Please also refer to the 1/32" Horten Ho 229" instruction manual to use these parts.

To build this kit, you need basic tools (see page 6 of the kit instruction manual), a pin vice and drill blades (1.0 mm diameter). Please make sure they are at hand before starting your work.

This kit provides parts to exchange the gun barrel or the pitot tube of the MK103 machine gun from the 1/32" Horten Ho 229". Check very carefully before assembling these parts to your 1/32" Horten Ho 229" kit.

To affix the parts of the kit, please use instant glue. Please do not use glue dedicated to plastic models. Before painting, make a primer coat using the Metal Primer. (Without primer coat, paint may peel.)

The recommended brand for painting your kit is the latest line of paint from Vallejo Color, due to its non-toxicity and environmental friendliness. While referring to Zoukei-Mura 1/32" Horten Ho 229" Instruction Manual and the resources on historical Luftwaffe aircrafts, you may paint the model with the coloring of your choice.

Use all the tools and solutions for assembling and painting by following their respective instruction manuals.

Chart of Included Parts

We take the utmost of care when overseeing manufacturing, but if your kit is among the very small percentage that contains a defective part, please contact customer service within two weeks of your purchase with your full name and order number.
