1/32 Dornier Do 335 A-0 Pfeil

**Weighted Tires**

**Important Points for Assembly**

- Carefully read the assembly manual prior to opening and make sure that everything is included.
- Use this item, tools such as scissors, craft knife and files, sanding papers, instant glue, etc., are required, so please prepare them.
- Please prepare the parts first. You can remove seam lines and gate marks with tools such as nippers, a craft knife and files. Urethane resin is softer than the plastic material used for the kit, so be careful to avoid carving too much. Air bubbles can be filled with putty (apart from plastic, etc.) or similar, then finished with sanding paper. In the case that mold details are lost, you can recover them with tools such as spatulas.
- During assembly, adjust the orientation of each part while checking the balance and pose of the entire set. Instant glue should be used for these parts. Please note that they cannot be glued with plastic model kit cement.
- We recommend using brass wire (sold separately) to reinforce the areas where the parts are glued together. Use a pin vise and drill bit to open a hole on both sides of each gluing surface, then insert the ends of a brass wire into the holes to connect the sides. This will greatly increase the strength of each joint. (Using the wires without glue to temporarily build a figure is called dry fitting. We recommend doing so in order to check each figure's balance.)
- Base preparation is required before painting. Please thoroughly finish the base with a coat of surface paint (otherwise, the paint will chip off as it passes).
- The recommended brand for painting your kit is the environment-friendly latest line of paint from Vallejo Color. Please refer to the Zoukei-mura 1/32 "Dornier Do 335" Instruction Manual and Luftwaffe historical manuals to paint the model with the coloring of your choice.
- When it comes time to use tools and paints, please carefully follow the individual instructions respective to each tool for your safety.

**Chart of Included Parts**

- **Nose Wheel**
- **Tires x 2**

**Main Wheels Attachment**

When you build the 1/32 "Dornier Do 335" kit, instead of part J-1 attach the main wheels of this set (left and right sides). The main wheels of this kit have been represented without tread.

**Nose Wheel Attachment**

When you assemble 1/32 "Dornier Do 335", instead of part J-4 attach the nose wheel of this set.

We take the utmost of care when overseeing manufacturing, but if your kit is among the very small percentage that contains a defective part, please contact customer service within two weeks of your purchase with your full name and order number. Purchasers from VOLKS Japan International Web Site: Please contact imos@volks.co.jp. Purchasers from VOLKS USA: Please contact service@volksusa.com.

Additionally affixing the separately sold "Metal struts" part will increase the stability and strength of the kit.

---

**1/32 “Dornier Do 335” Assembly Instructions**

These parts will be inserted when assembling the 1/32 "Dornier Do 335" kit. Please refer to the instruction manual of the "Dornier Do 335."
