Notices Before Assembly

For use of this part, please refer to the instruction manual of the 1/48 "J7W1 SHINDEN" and prepare the required tools.
Please use nippers for etching parts when cutting off the etching parts. Tweezers may also be very useful when handling the parts you cut and attaching them to the kit.
To affix the parts of the kit, please use an instant glue. Please do not use glue dedicated to plastic models. Before painting, make a primer coat using a Metal Primer. (Without primer coat, paint may peel.)
The recommended brand for painting your kit is the latest line of paint from Vallejo Color, due to its non-toxicity and environmental friendliness. While referring to resources on historical Luftwaffe aircrafts, please check the instruction manual of 1/48 "J7W1 SHINDEN."
Please use caution when handling the tools and solvents used for assembly and painting by referring to their instruction manuals.

We take the utmost of care when overseeing manufacturing, but if your kit is among the very small percentage that contains a defective part, please contact customer service within two weeks of your purchase with your full name and order number.
