SUPER WING OPTIONS

1/48 Ta 152 H-1 Assembly Instructions

**Standing Pilot**

This item contains only one resin part. Modify and paint the kit as you like while following the "Important Points for Assembly".

**How to use the “Standing Pilot Figure”**

Once the "Standing Pilot" is ready, put it besides the Zoukei-Mura 1/48 Ta 152 H-1 kit, and display it the way you prefer. It is also possible to use the figure alone.

---

**Important Points for Assembly**

- Please carefully read the assembly manual prior to opening and make sure that everything is included.
- To use this item, tools such as snips, craft knife, files, sanding papers, instant glue, etc., are required, so please prepare them.
- Please prepare the parts first. You can remove seamless and gate marks with tools such as nippers, a craft knife and files. Urethane resin is softer than the plastic material used for the kit, so be careful to avoid carving too much. Air bubbles can be filled with putty (epoxy, plastic, etc.) or similar, then finished with sanding paper. In the case that mold details are lost, you can recover them with tools such as spurtles.
- During assembly, adjust the orientation of each part while checking the balance and pose of the entire kit.
- Instant glue should be used for these parts. Please note that they cannot be glued with plastic model kit cement.
- We recommend using brass wire (sold separately) to reinforce the areas where the parts are glued together. Use a pin vice and drill bit to open a hole on both sides of each gluing surface, then insert the ends of a brass wire into the holes to connect the sides. This will greatly increase the strength of each joint. (Using the wires without glue to temporarily build a figure is called dry fitting. We recommend doing so in order to check each figure’s balance.)
- Base preparation is required before painting. Please thoroughly finish the base with a coat of surfacer spray (otherwise, the paint will chip off as time passes).
- The recommended brand for painting your kit is the latest line of paint from Vallejo Color, due to its non-toxicity and environmental friendliness. While referring to resources on historical Luftwaffe aircrafts, you may paint the model with the coloring of your choice.

**Chart of Included Part**

We take the utmost of care when overseeing manufacturing, but if your kit is among the very small percentage that contains a defective part, please contact customer service within two weeks of your purchase with your full name and order number.

**Purchasers from VOLKS**
