**Attention!**  
 This item is meant for hobbyists 15 years of age or older. Please do not give this item to children under 15.  
 This item is intended for use with the Zoukei-mura 1/32 "P-51D Mustang". The polyethylene bags that contain the parts and assembly manual present a suffocation risk. Please do not drop the parts or bend them in unintended ways, as they may be damaged.  
 In order to properly express the shape of the items, it was unavoidable for some parts to have sharp edges. Please be careful. Also, please make sure not to leave them in the reach of small children.

### Important Points for Assembly

To use this item, please refer to the assembly manual of the 1/32 "P-51D Mustang" as well. Please prepare any necessary tools.  
 Please use nippers designed for photo-etched parts to cut out the parts. After cutting the parts out, it will be much easier if you use modeling tweezers to handle the parts during treatment and attachment.  
 Instant glue should be used for these parts. Please note that they cannot be glued with plastic model kit cement. Please finish with a coat of metal primer or similar.  
 With regard to paint, after taking personal safety and the global environment into consideration, we recommend using "Vallejo Colors," acrylic hobby paints for the new century. Please check the 1/32 "P-51D Mustang" assembly manual, as well as historical references regarding the USAAF, and finish your Mustang in your desired color scheme.  
 When it comes time to use tools and paints, please carefully follow the individual instructions respective to each tool for your safety.

We take the utmost of care when overseeing manufacturing, but if your kit is among the very small percentage that contains a defective part, please contact customer service within two weeks of your purchase with your full name and order number.
