### ◆◆Important Points for Assembly◆◆

- Before opening the bag, please carefully read this instruction manual and verify that all the parts are included. Please refer to the 1/48 "Ta 152 H-1" instruction manual to use these parts.
- To build this kit, instant glue and Metal Primer spray are required. Please make sure they are at your hand before starting your work.
- To assemble this set, the gun barrels (parts A-1 and A-3), the Pitot tube (part D-12) and the antenna (part C-17) from the 1/48 "Ta 152 H-1" kit should be replaced with parts from this kit. Please double check the assembly process.
- To affix the parts of the kit, please use instant glue. Please do not use glue dedicated to plastic models.
- Before painting, make a primer coat using the Metal Primer. (Without primer coat, paint may peel).
- The recommended brand for painting your kit is the latest line of paint from Vallejo Color, due to its non-toxicity and environmental friendliness. While referring to 1/48 "Ta 152 H-1" instruction manual and resources on historical Luftwaffe aircrafts, you may paint the model with the coloring of your choice.

※Please carefully use the tools and the solvents used for assembly and painting by referring to their instruction manuals.

### Chart of Included Parts

We take the utmost of care when overseeing manufacturing, but if your kit is among the very small percentage that contains a defective part, please contact customer service within two weeks of your purchase with your full name and order number.
