Contents

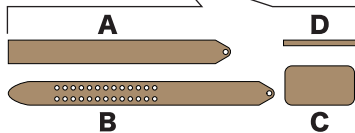

Cut the belts off from the cardboard with a cutter or a design knife. Please use specific nippers to cut photo-etched parts. Tweezers for plastic models are very helpful to handle cut parts and apply them to the kit.

Contents

0.2mm thick, high-strength color paper x1
Photo-etched parts x1

High-strength paper
"Skin" color

Cut the high-strength papers as in the figure, and assemble as shown right by referring to the marks (from A to D). Photo-etched parts numbers are printed on the cardboard, so check them first and cut.

Assembly

Let the belt pass through the metal parts cut, and assemble as shown below while adjusting the belt's length. Attach the high-strength paper of the belt part with some wood bond. Attach the belt and the seat parts with a double sided tape.
